👤 ABOUT ME

I'm Mostafa Mahmoud, I'm a computer science student and problem solver, competitive and creative programmer with a passion for learning and experiencing new things, Detail-oriented, organized, I interested in Web development and especially Backend development. Attended Faculty of Computer science and Information, Zagazig University.

🎓 EDUCATION

10/2022 – 07/2023 Zagazig, Sharqia	Ahmed orapy Military High School <i>Grade: 86.1% / Student</i>
10/2024 – present Zagazig, Sharqia	Zagazig University <i>Level 2 / GPA 3.6 / Faculty of Computer Science and Information</i>

👛 PROFESSIONAL EXPERIENCE

ICPC Zagazig University Community 📁

10/2024 – 12/2024 Zagazig, Sharqia	Trainee level 1 I solved programming problems in a different topics Participated in training sessions to enhance problem-solving and competitive programming skills I have successfully completed level 1 in several topics
01/2025 – present Zagazig, Sharqia	Technical Team member Participated in various competitive programming contests. I enhanced my problem-solving skills and learned advanced algorithms, data structures.
10/2025 – Present Zagazig, Sharqia	Trainee level 2 Over five weeks, I'm master recursion, backtracking, graph algorithms (DFS & BFS), and dynamic programming, I solved intermediate competitive programming challenges.

GDG On-Campus Zagazig

10/2025 – Present Zagazig, Sharqia	Back-End Core Team Member
04/2025 – 09/2025 Zagazig, Sharqia	Front-End member Worked on front-end development tasks and collaborated with team members on various projects. I learned HTML, CSS.
11/2024 – 09/2025 Zagazig, Sharqia	IEEE CS Zagazig Student Chapter 📁 Back-End member Contributed to backend development tasks and collaborated on various projects. I learned MySQL, PHP, Laravel, JavaScript, NodeJs, ExpressJs and MongoDB.

07/2025 – 09/2025
Zagazig, Sharqia

ITI - Information Technology Institute (Zagazig)

Web Development using .NET trainee

- Topics Covered (120 H) :
 - DB Fundamentals using SQL Server (24 H)
 - Introduction to C# (42 H) - Entity Framework (18 H) - ASP.NET MVC (36 H)
- Key Skills Acquired :
 - Designing and managing SQL Server databases.
 - Writing backend logic using C#.
 - Implementing data access layers with Entity Framework.
 - Building dynamic web applications using ASP.NET MVC architecture.

SKILLS

Problem Solving

Competitive Programming

C++

Python

OOP with C++

Data Structures & Algorithms with C++

HTML

CSS

JavaScript

PHP

C#

Laravel

ASP.NET Core

Express

MVC

MySQL

MongoDB

Microsoft SQL Server

Git & GitHub

Node.js

Tailwind CSS

Teamwork & Mentoring

PROJECTS

Hogwarts for programming

IEEE Back End Project with Native PHP and MVC

Contacts-Book

FCI University level 2 first project with Data structures with C++

Quran-Kareem

FCI University level 2 second project with Data structures with C++

Small Projects with C++

Higher Calculator , Timer , XO game , Guessing the number

Balloon-Game

Computer Graphics and Design with Java

E-Commerce-Platform

IEEE Back End Project with Laravel Framework

Digital-Library-API

IEEE Back End Project with Node.js
